

Your Midyear IT Review

Most IT issues don't start big. They build over time.

This scorecard helps you spot them before they lead to downtime or data exposure.

Helping Your Business
Live Long and Prosper

Yes No

☐☐

Do you regularly review who has access to your systems?

☐☐

Do you have a clear, up-to-date list of all the tools your team is using?

☐☐

Have you recently tested your backups to confirm they can restore your data?

☐☐

Do you know which vendors have access to your systems and what data they store?

☐☐

Do you know what an hour of downtime would cost your business?

☐☐

Are small system issues resolved before they become bigger problems?

☐☐

Is it always clear who's responsible when something goes wrong with your technology?

☐☐

Do your systems and processes support how your business operates today?

Your Total Results

Good Standing

(7 – 8 yes answers)

Your foundation is strong.
Maintain it with regular reviews.

Needs Improvement

(4 – 6 yes answers)

Some gaps are building in
the background. A review
is recommended.

At Risk

(0 – 3 yes answers)

Multiple gaps are putting your
business at risk. Immediate
action is needed.

When you're partnered with **Vulcan Business Solutions**, your technology is proactively managed and protected as part of our IT guarantee.

Not sure how to close these gaps?

We'll review your results and help you fix them before they impact your business.
